ABOUT US

We are a World Class converter and printer of pressure sensitive labels, digital labeling, and packaging related products.

Minority Business Enterprise. (MBE Certified)

ISO 9001:2015 Registered.

Strategic alliances with Suppliers such as: Avery, 3M, Flexcon, UPM Raflatac, DNP Ribbons and IMAK among others.

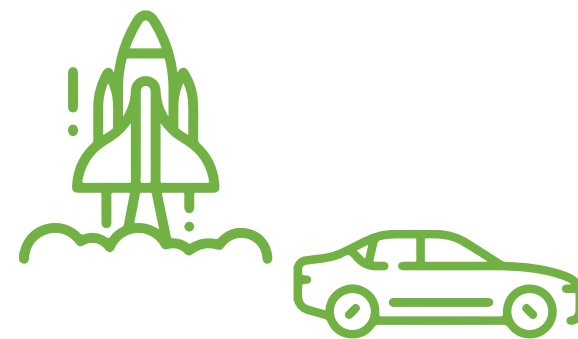

GMI certification by SGS.

FOUNDED IN
1987
LOCATED IN
EL PASO, TX.

We provide worldwide solutions:

Automotive, Aerospace & Industrial Solutions

- High quality customized products
- OEM Customer
- Specific Requirements
- (CSRs) PPAP submission and validation
- Product development and samples
- Fast turnaround service

Medical & Health Solutions

- High Bio-compatibility quality and toxicity compliance
- Customized approved products materials
- Brand aesthetics enhancement
- Reliable-high performance products
- Fast turnaround service

Electronic & Electrical Solutions

- High quality customized products
- UL recognized
- Reliable
- High component
- Performance labels
- Product development and samples

Food, Beverage & Consumer Goods Solutions

- Brand aesthetics enhancement
- High quality customized products
- Reliable-high performance products
- Product development and samples
- Fast turnaround service

Product Development and Samples

- Ribbons
- Pamphlets and brochures
- Overlays
- Digital printed material
- Non woven material printing
- Custom R&D for your printing project

OUR PRODUCTS

Full Color

Full color labels (CMYK) allow you to use photographs and complex graphics for a professional looking label.

UL Labels

A UL Recognized label bears safety-related information such as warnings, cautionary markings, installation instructions or electrical ratings.

Polyester Labels

Clear film label that is durable and weather resistant. It can withstand high levels of abuse and abrasion. Resists most solvents and oils.

UPC Labels

These labels are made from our matte white paper label stock with a permanent adhesive. Excellent print quality results.

Tamper Evident Labels

Also known as "Security Labels" and "Security Seals," Tamper-Evident Polyester Labels leave a permanent "Void" pattern when removed from any surface.

Translucent Labels

Translucent labels virtually disappear when applied to white or colored surfaces which gives the impression of a personalized appearance.

Tags

We offer a variety of Tags that are available in standard industry sizes as well as custom sizes to fit your needs.

Removable Labels

Removable labels can be applied to most surfaces and easily removed without leaving any adhesive residue

Custom Shape Labels

Thinking out of the box? Custom Shape Labels allow your product to stand out.

UV Coated Labels

UV coated labels that have an aqueous finish put on them for some protection from the elements.

Foil Labels (Metallic)

Silver or Gold. Used primarily for advertising purposes, high quality packiging labels, cosmetics, and electronics. Surface not suitable for handwriting or typewriter use.

Packaging Labels

We offer Packaging Labels for an assortment of applications including: food packaging, cosmetics, pharmaceuticals, and normally any product or package that requires packaging and labeling.

Thermal Transfer Labels

Specifically designed to work on thermal transfer printers these labels are great for applications that require small barcodes, high quality bar codes and high density bar codes. Thermal Transfer Labels are the choice when it comes to printing variable information on demand.

Direct Thermal Labels

Thermal sensitivity coated for use in direct thermal printing. Available with various top coatings to provide different levels of environmental resistance.

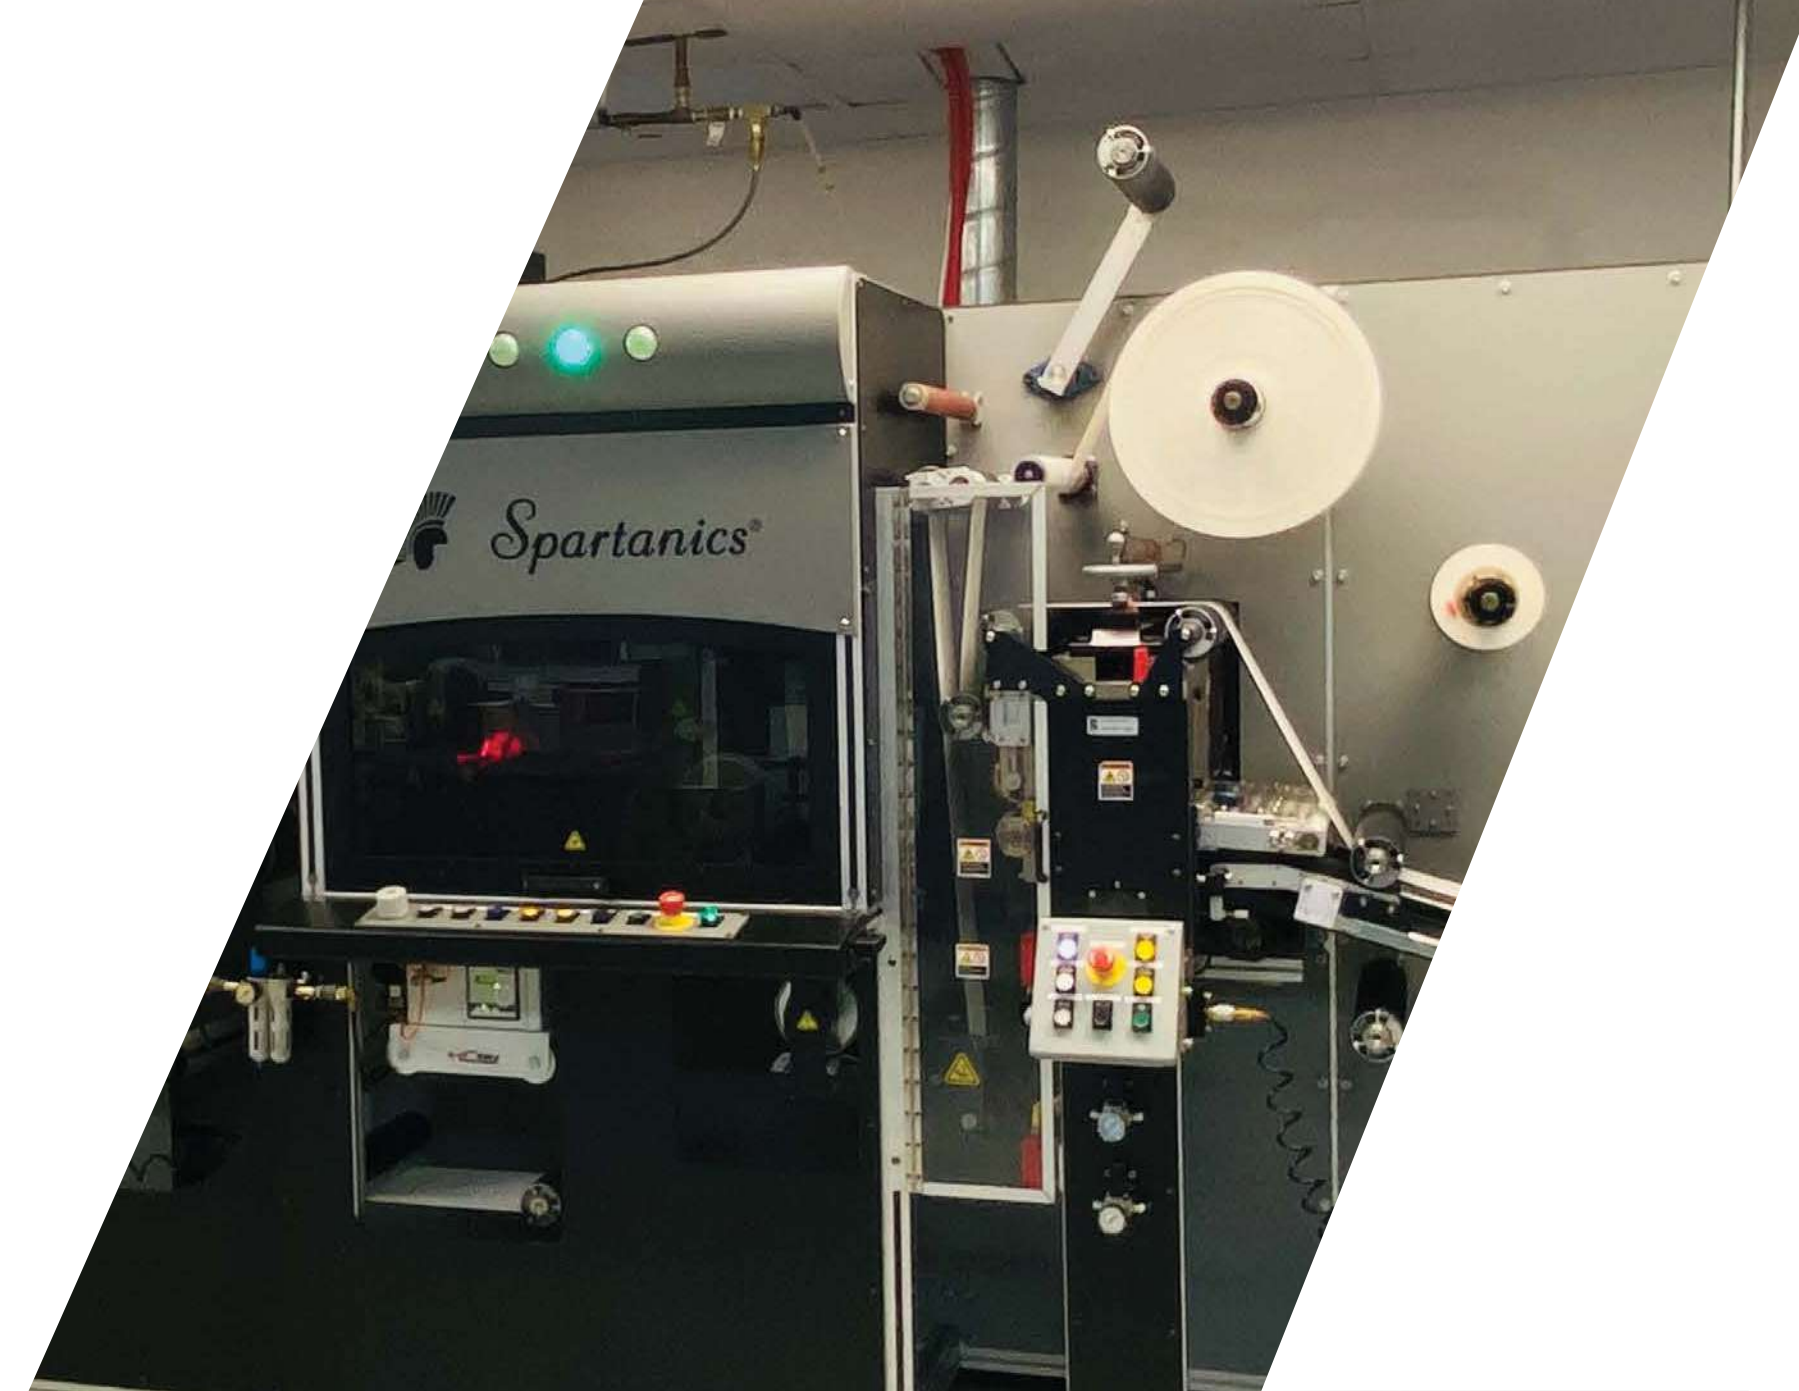

Thermal Transfer Ribbons

Many different types of thermal transfer ribbons are stocked for your printer. Call us and we can help you match the right ribbon for your application.

**OUR
CAPABILITIES**

DIGITAL PRINTING & LASER CUTTING

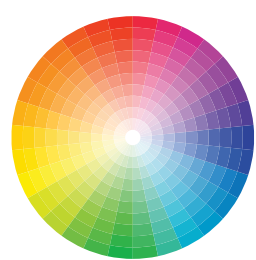

- Label kit compabilites
- Any shape or form
- Vibrant high quality labels
- Infinite Colors
- Up to 8" Wide HD printing
- Smaller orders
- Short to medium runs
- No die cost
- Fast Prototyping

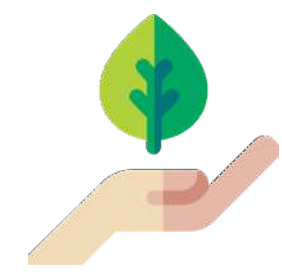

OUR CAPABILITIES

FLEXOGRAPHIC CAPABILITIES

On- Demand Printing
8 Colors - Up to 13” Wide
HD - printing (> 175 LPI)

Environmentally Friendly
UV Inks and Coatings

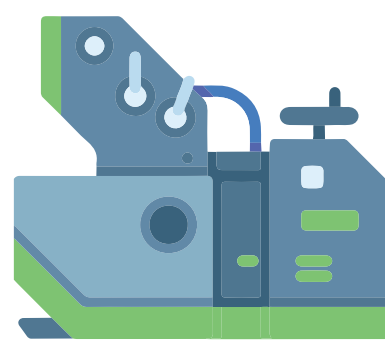

Back (Reverse) Printing
(1 over 7 up to 7 over 1)
Corona Pre- treatment
Capabilities

Automated Roll Feeding,
Butt splicing

Inline - 100% Automated
Visual Inspection

Quick - change
Flexographic Printing
Equipment

Variable Data/Barcode
printing

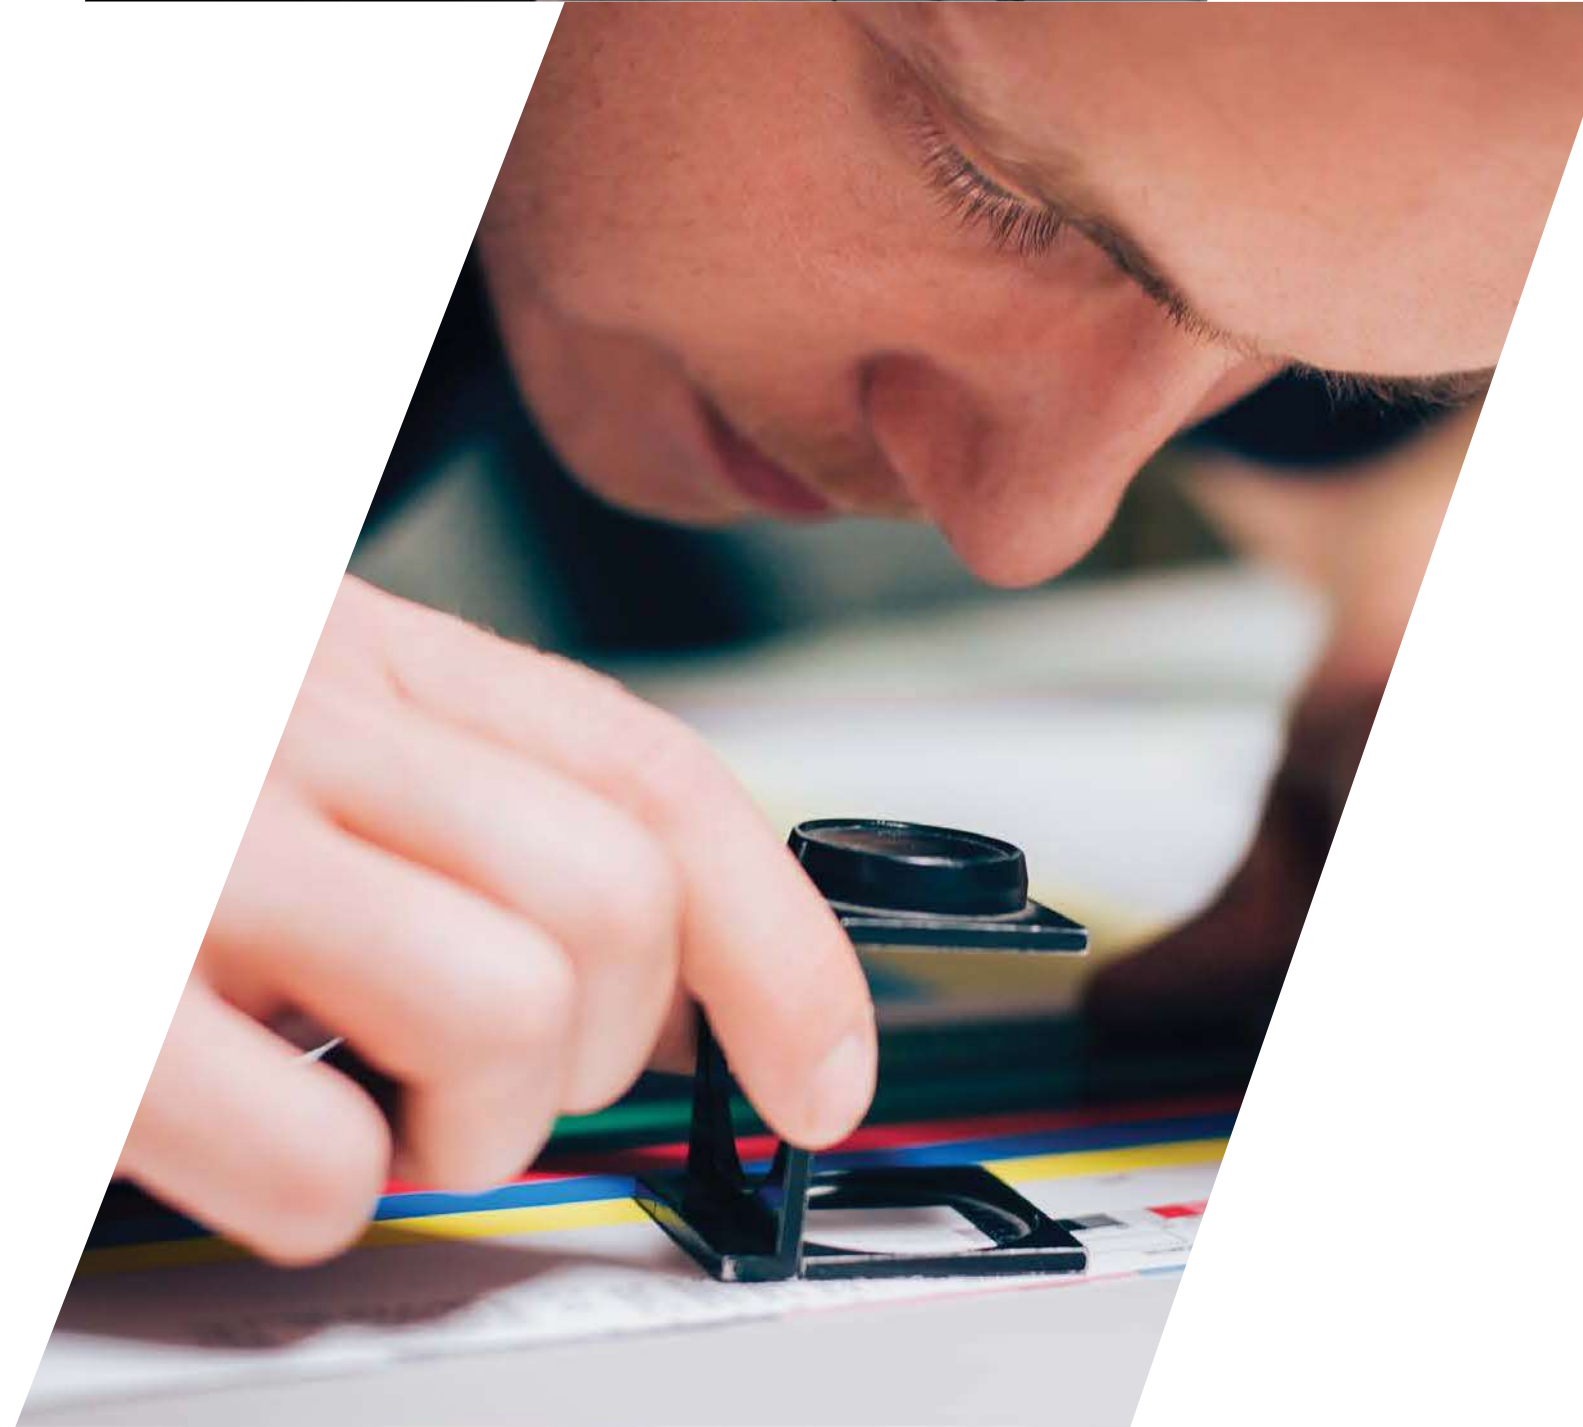

Multi-label-kit-printing

OUR CAPABILITIES

PRE- PRESS & GRAPHIC CAPABILITIES

- Artwork creation and recreation
- Product design and development
- Digital plate imaging
- ECO friendly aqueous plate making equipment
- Automated work flow
- Pre-flight (printing feasibility)
- Prototype printing and plotter-cutting
- Full size color proofing capability
(to match future fingerprinted press product)
- Integrated Color Management

OTHER CAPABILITIES

- Rewinding
- Off-set printing
- Folding
- Fanfold and Sheet Finishing
- Automated waste removal system
- VMI. SMI. Consignment programs
- Same day product availability

OUR ENGINEERING SOLUTIONS

Product Development

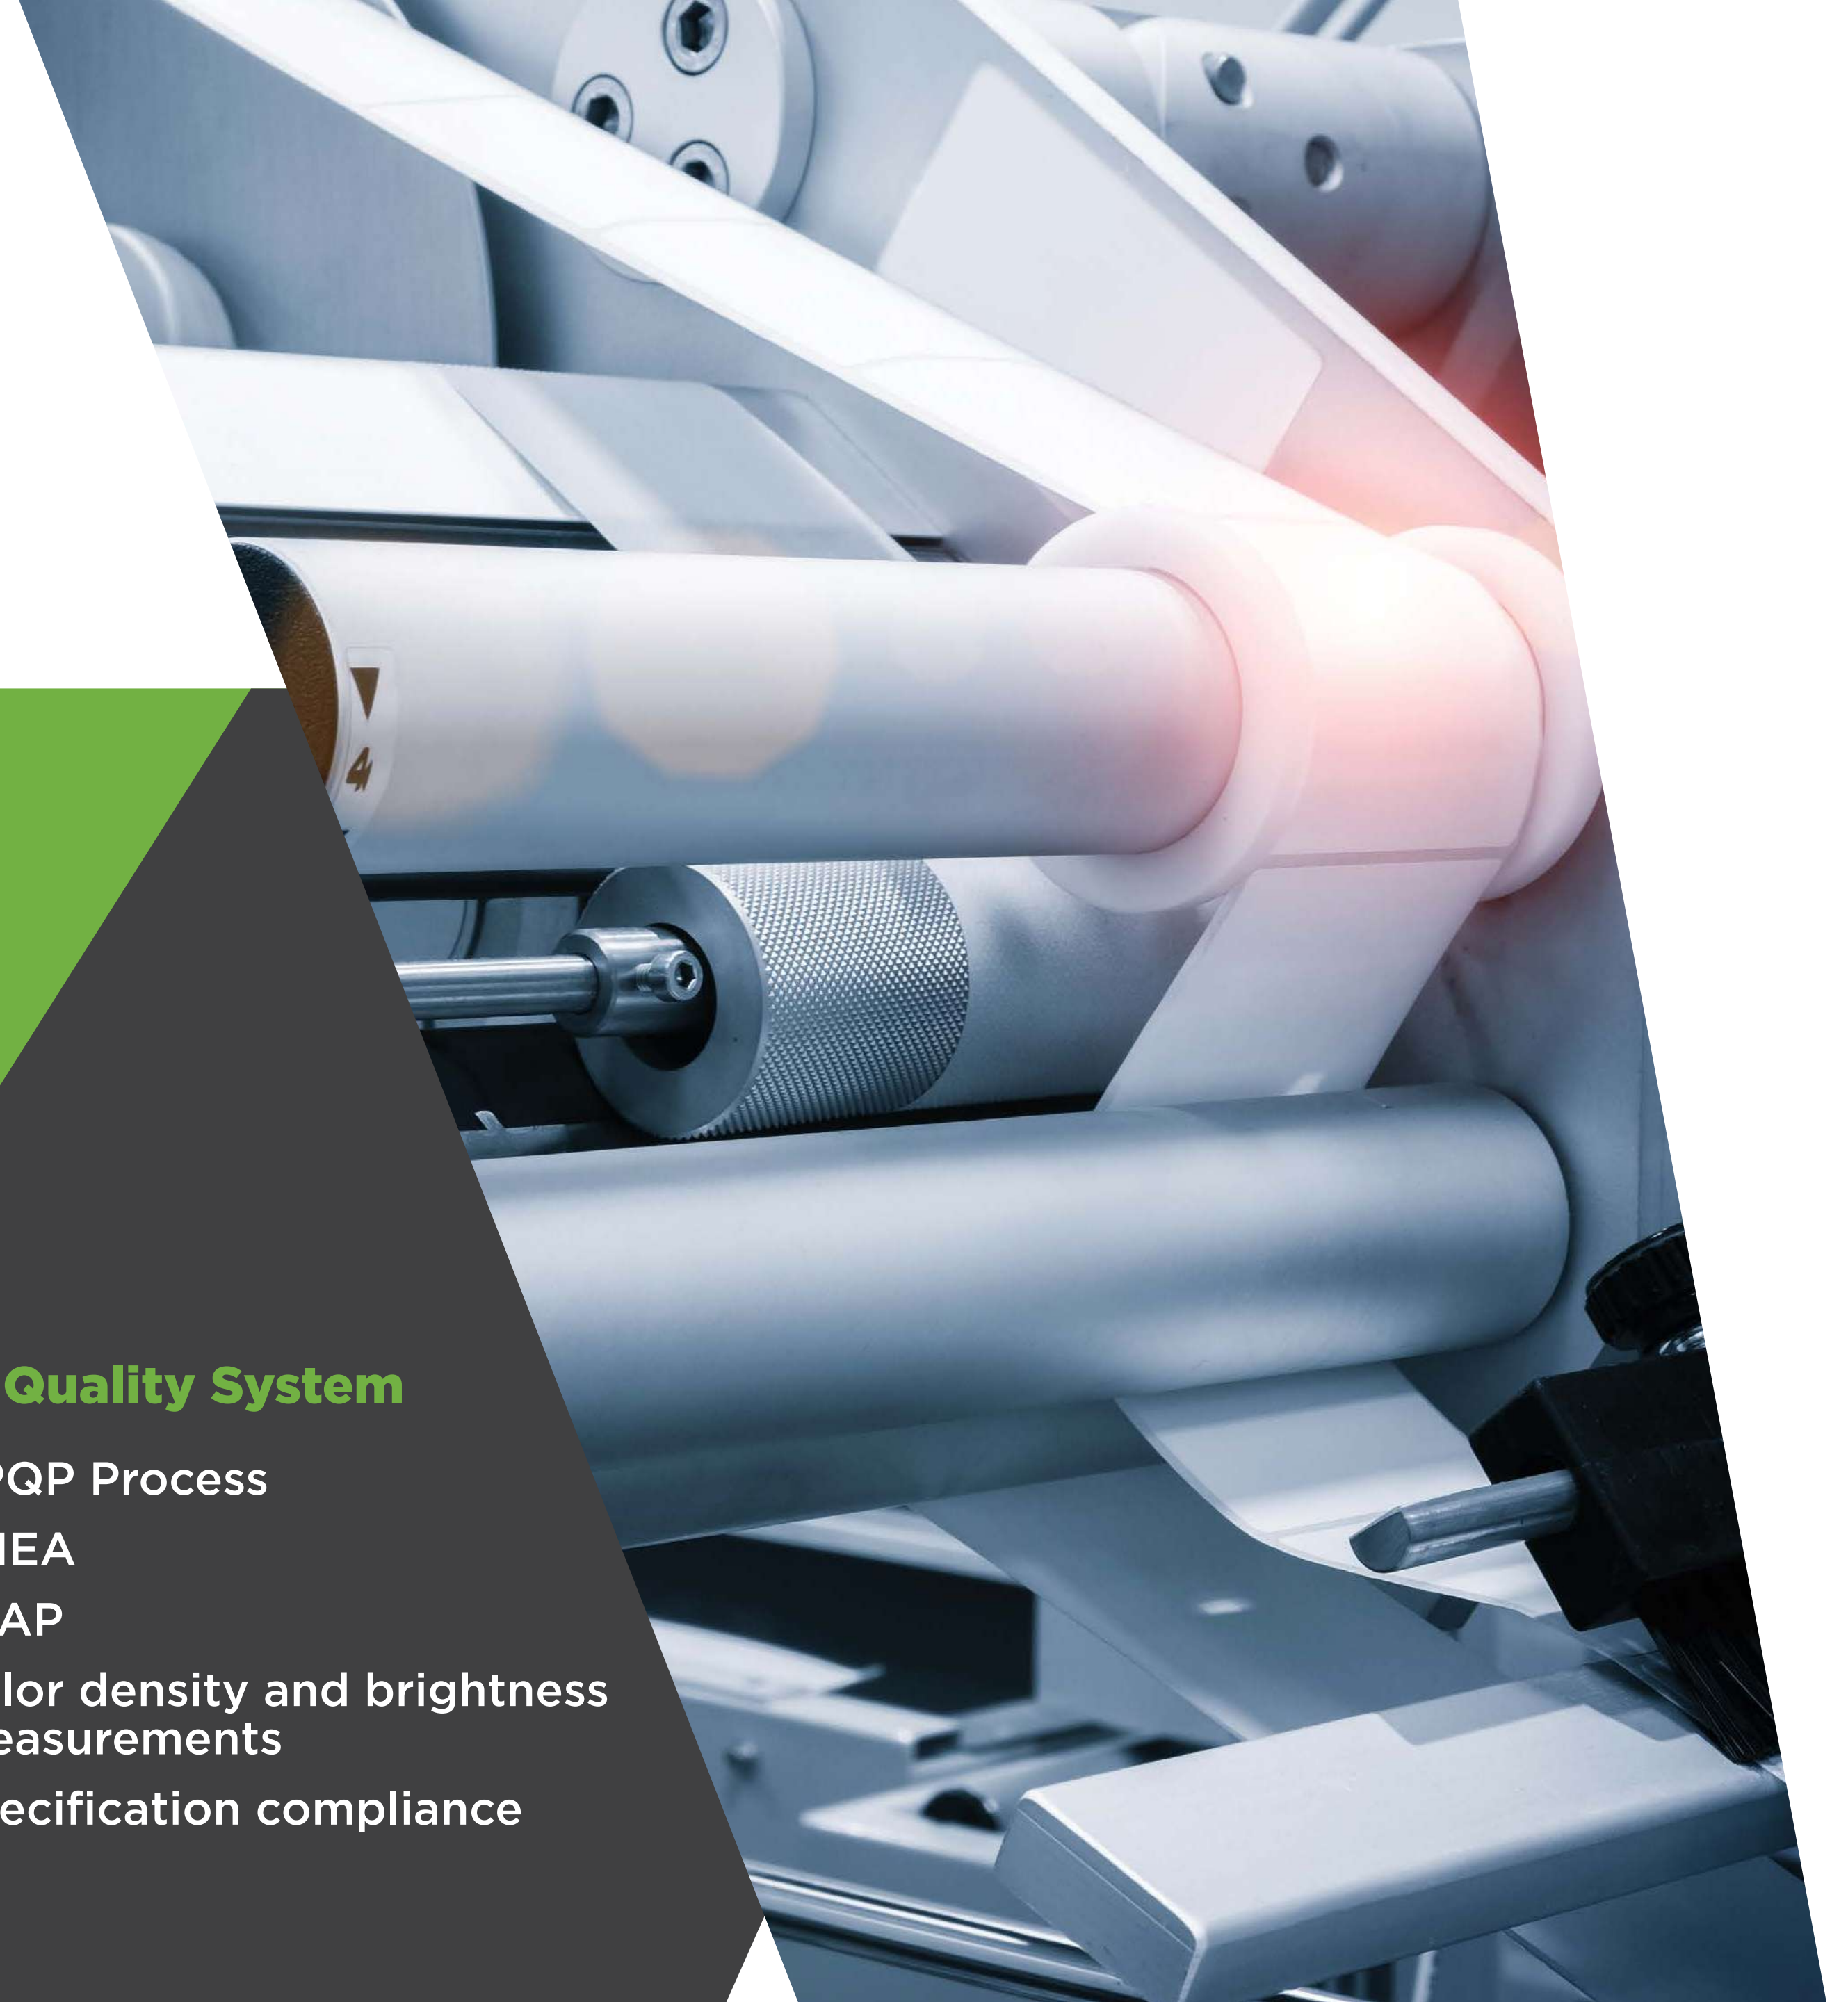

- Project Management
- Prototyping
- Material Recommendation & Validation
- Design of tooling plates and files
- Label Packaging Design
- Engineering Changes

Manufacturing Engineering

- Personal training and certification
- VSM
- SMED
- Product and raw material traceability
- Material certification

Quality System

- APQP Process
- PMEA
- PPAP
- Color density and brightness measurements
- Specification compliance

OUR KEY DIFFERENTIATORS

- Technology leader in Flexographic and digital equipment.
- High quality processes, materials and inks.
- Full color printing.
- Fast turn around service.
- Extensive material expertise.
- Product design and development.
- Prototyping capacities.
- Lab testing capacities.
- QMS items such as PPAP, PFEA, APQP and complete specification compliance.

**LEADING
SOLUTIONS
PROVIDER**

**ONE-STOP SHOP
FOR ALL
PRINTING NEEDS**

- In line Variable Printing
- Consistently Strong Financial Performance
- Vertical Integration
